

My training period at Frontware International was a fabulous time i had. I learn many things here. The members of Frontware are really helpful and gives their best effort in everything. All of them are undoubtedly hard working and passionate. I really feel proud after working here and back home with me i take a lot of experience and knowledge with me along with the lifetime friends.

Also, special thanks to Areerat ma'am and Eric sir for their all support and help.

With the knowledge i have gained here, i will definitely try to excel in the future.

Thanks a lot.
